## THE WORLD'S LEADING DATA RECOVERY FIRM SINCE 1985

TRENDING

### MOST POPULAR PROFESSIONAL DATA RECOVERY SERVICES

We support data recovery on all these types of devices, and more at our data recovery center. See the [Full List of Recoverable Device Types](#).

**HARD DRIVE DATA RECOVERY**

If you own a desktop PC or a laptop, Mac or Windows, or any kind of computer, then you have a hard drive! Hard Disk Drives (HDD) and Solid State drives (SSD) store all your important information, files, photos, video (assuming adherence to copyright laws), etc. Unfortunately, they can be susceptible to data loss due to hardware failures, physical damage, and malware. Not to worry – We can save it!

[LEARN MORE](#)

**RAID DATA RECOVERY**

RAID technology is omnipresent among enterprise-level storage devices and many high-capacity consumer storage devices. It utilizes multiple hard-disks to help protect data in the event of a failure. However, not all RAID levels provide redundancy and are vulnerable to data loss. Mission critical? Unit down? We can do that! Data retrieval services for RAID storage devices is one of our specialties.

**IPHONE DATA RECOVERY**

If you dropped your new iPhone 11 in the pool or your data has been deleted from your iPhone, then Apple's built-in encryption could prevent a successful data recovery. But it won't stop the data recovery specialists at DriveSavers. We pioneered the first data recovery from an iPhone after it was introduced to the market. Your iPhone data isn't lost – we can help!

[LEARN MORE](#)

**MAC DATA RECOVERY**

If you've lost Mac data, we have you covered! Our technical systems and proprietary software can effectively restore deleted files and regain complete access to your lost data. Our process is 100% safe and our relationship with AppleCare and Apple Service Providers means there is no risk to your warranty when using our data recovery service. We can save your data.

[LEARN MORE](#)

**SSD DATA RECOVERY**

A solid-state drive (SSD) is a term referring to a storage device that uses integrated circuit assemblies rather than physical spinning disks & movable read-write heads used by conventional hard drives to store data. SSDs are typically more resistant to physical shock & external threats, but they are still vulnerable to data loss as other storage devices.

**WE TREAT ALL OF OUR CUSTOMERS LIKE CELEBRITIES AND SOME OF THEM ACTUALLY ARE.**

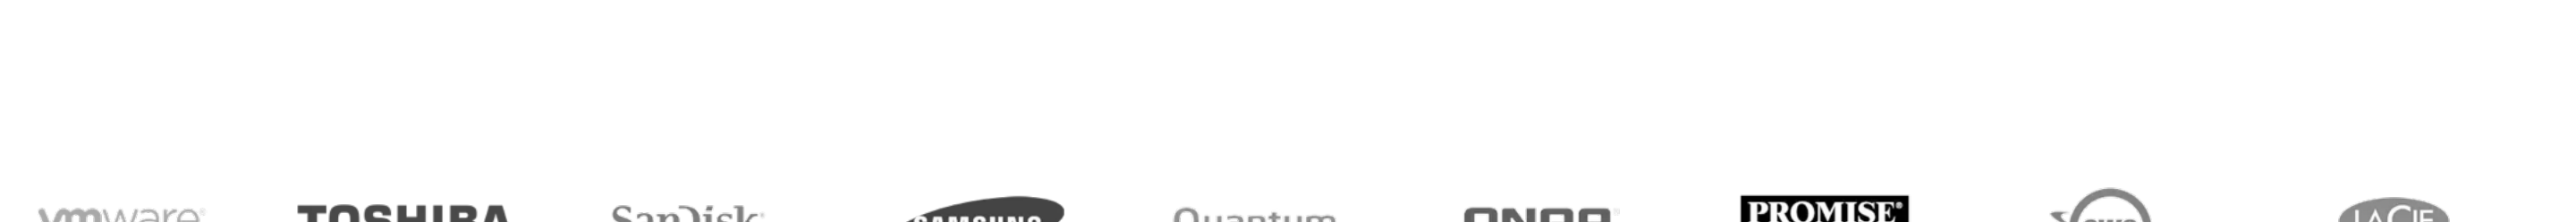

VIEW HALL OF FAME

Trust the professionals at DriveSavers! If you have lost critical data, the first recovery attempt offers your best opportunity for success. DriveSavers has the technology, security and experience required to get your data back. Some of our satisfied customers include companies such as **Coca Cola, Facebook, Google, AT&T, Tesla, NASA** and many others.

## AUTHORIZED BY ALL STORAGE DEVICE MANUFACTURERS

All leading manufacturers authorize DriveSavers to open sealed drive mechanisms without voiding the original warranty. Our data retrieval services allow you to receive an in-warranty drive replacement from the manufacturer.

### FREE SHIPPING

If you're asking, "are there data recovery services near me," and you're hearing no, we've got you. Download a free overnight shipping label via email and simple online packaging instructions for shipping.

### FREE EVALUATION

Once your device is received, DriveSavers Professional Data Recovery Specialists will evaluate your device, free of charge. Those are our terms. Sound good? Great! Let's get started! It's Simple!

### NO DATA, NO CHARGE!

In the unlikely event that your data is not recoverable, there is NO charge for our data recovery attempt, and we even ship your device back to you, for free!

## TURNAROUND TIME DATA RECOVERY SERVICE PLANS

### PRIORITY

Our professional data recovery services begin the moment we receive your drive. Priority service is available 365 days a year including nights, weekends and holidays.

ASAP

[Learn More](#)

### STANDARD

We offer the Fastest Standard Turnaround Time in the industry. Data retrieval services will be provided during normal business hours.

1-2 BUSINESS DAYS

[Learn More](#)

### ECONOMY

An economical service option offering job completion during normal business hours.

- 5-7 BUSINESS DAYS
- 10-14 BUSINESS DAYS - SMART DEVICES

**DRIVE RECOVERY SUCCESS**

At DriveSavers, data loss is only temporary and we prove it every day with the highest data success rate in the industry. Our volume of recovered data speaks for itself.

For over 35 years, DriveSavers has performed professional data recovery on every kind of storage device including hard disk drives (HDDs), solid-state drives (SSDs), smartphones such as iPhones and Android phones; tablets, USB flash drives, camera cards and enterprise-level devices like RAIDs. We have proprietary tools to handle every kind of data loss situation on any server including physical and mechanical failure, backup failure, water and fire damage, data corruption, file deletion, head crash, system failure and more. We conduct all our data recoveries using software and solutions that won't further damage your device.

All physical data recoveries are performed inside our dust-free and static-free Certified ISO Class 5 Cleanroom. The Cleanroom is an operating room for damaged drives, which prevents contamination that could result in permanent data loss while we perform surgery on the delicate components of your storage device. That's why, since 1985, major data storage device manufacturers have trusted DriveSavers to find the issue and perform intricate recovery operations without voiding the original warranty.
